HYDRAULIC CONTROL SYSTEMS

Kent Fluid Power provides solutions through our technically qualified team of fluid power associates and our complete line of quality products for both hydraulic and pneumatic applications. Kent offers recommendations and system solutions for maximizing and improving the productivity of your equipment.

Hydraulic Pumps

- Air/Oil to 10,000 PSI
- Gear to 4,000 PSI, 335 GPM
- Piston - fixed and variable
- Vane fixed and variable

Hydraulic Power Units

- Custom designed power units
In stock, from fractional HP to 50 HP power unit
- Custom filter carts

Hydraulic Accessories

- Clutches/Brakes
- Filters
- Heat exchangers
- Motor to pump adapters
- Planetary gearboxes

Hydraulic Valves

- Directional control (JIC)
- Directional control (MOBILE)
- Flow controls - all types
- Pressure controls

Hydraulic Cylinders

- Agricultural
- JIC interchangeable
- Mobile, ASAE
- Telescopic

Pneumatic Cylinders

- Air springs
- JIC interchangeable
- Miniature
- Rodless

Pneumatic Valves

- Manual, solenoid, or pilot controls

Hydraulic Motors

- Gear - high speed
- Gerotor - low speed, high torque
- Gerotor - to 5,000 RPM
- Piston - high speed
- Piston - low speed, high torque
- Vane

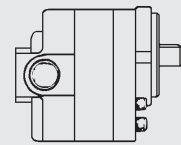

Test Equipment

- Flo-Tech
- Hedland
- Webster Instruments

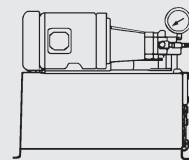

Repairs

- Hydraulic pumps
- Hydraulic motors
- Hydraulic & pneumatic cylinders
- Large & small gearboxes
